# GROWING SWEET PEPPER PLANTS BASED ON EFFECTIVE ELECTRICAL TECHNOLOGY

Introduction. In recent years, the area under crops has been significantly expanded in order to provide the domestic market with quality products and increase the country's export potential by increasing food production. Practical measures are also being taken, such as specializing the districts in fruit and vegetable growing, uniting producers into fruit and vegetable clusters and cooperatives. It shows that specialization of regions is the right way to grow competitive agricultural products that can meet the requirements of world markets.
